

Addendum to the Program

113th Meeting of the Tennessee Academy of Science

Cancellations:

Engineering

9:00 **Modeling Intracranial Pressure Dynamics.** Michael L. Daley, Imtiyaz Barmare*, The University of Memphis.

9:45 **Adaptive Modeling of Intracranial Pressure Dynamics.** Michael L. Daley, Sandeep Ramakrishnan*, Sarath Yalamanchilli*, The University of Memphis.

Geology and Geography

1:30 **Student-Centered Group Activities As An Alternative To Teacher-Centered Introductory Earth Science Lectures At Middle Tennessee State University.** Mark Abolins, Middle Tennessee State University.

3:00 **Geochemical Investigation Of The Mechanisms Of Magma Formation Beneath The Northern Oregon Cascades.** B. Cosky, Crombie, J. Baxter, B. Buchannan, and W. Cribb, Middle Tennessee State University.

Zoology

1:30 **Ixodid Ticks Of Rutherford County.** Tracey A Ludyjan-Ybarra*, Middle Tennessee State University.

4:30 **Predation On Internal Organs Of Field-Dressed White-Tailed Deer.** Joshua K. Bright*, Philip L. Johnson*, Allan E. Houston, and Michael L. Kennedy, University of Memphis (JKB, PLJ, & MLK), Ames Plantation (AEH).

Additions:

Geology and Geography

1:30 **The Role Of Sinkholes In Storing Fluvial Sediment.** Evan A. Hart, Tennessee Technological University, Cookeville, Tennessee

Poster **Geochemical Investigation Of The Mechanisms Of Magma Formation Beneath The Northern Oregon Cascades.** B. Cosky, Crombie, J. Baxter, B. Buchannan, and W. Cribb, Middle Tennessee State University.

Health and Medical Sciences

10:15 **Segmenting And Classifying Magnetic Resonance Images Of The Brain To Study Treatment Sequelae In Patients With Ependymoma.** Brian A. Taylor* and Gene Reddick, Union University, and St. Jude Children's Research Hospital.

Zoology

4:30 **An Isotopic Examination Of Cave And Epigeal Aquatic Systems In Mammoth Cave.** Zacchaeus G. Compson* and Philip W. Lienesch, Western Kentucky University.
