

## The Reelfoot Lake Biological Station

---

1. This Station is located at Walnut Log, near Union City, Tennessee.
2. The Post Office address is R. F. D., Hickman, Kentucky, where the Director may be addressed during the summer months.
3. The Director is Dr. C. L. Baker, whose address during the school year is Southwestern, Memphis, Tennessee.
4. The Reelfoot Lake Biological Station is owned and operated by the Tennessee Academy of Science.
5. The Biological Station is supported by the State of Tennessee; two thousand five hundred dollars being appropriated for this purpose for the last biennium.
6. The Station is open to qualified investigators without fee during the summer months. If it is desired to use the facilities of the Station at other seasons, arrangements should be made with the Director.
7. Reports of studies made at the Biological Station will be published by the Tennessee Academy of Science. This present *Report* presents ten summaries of such investigations. Five other studies made at the Station during the past year could not be published in this *Report* because of lack of funds. They will be published in the April number of the JOURNAL OF THE TENNESSEE ACADEMY OF SCIENCE.
8. This *Report* was edited by Dr. Jesse M. Shaver, George Peabody College for Teachers, Nashville, Tennessee.
