DR. GUSTAVE H. LUNDBERG, NEW TREASURER, TENNESSEE ACADEMY OF SCIENCE

Gustave Harold Lundberg, Professor of Applied Mathematics in the School of Engineering at Vanderbilt University, was born in Fremont, Nebraska, September 5, 1901. His early education was received in the Fremont Public Schools and his undergraduate training at Midland College, from which he was graduated in 1924. In 1937 he received an M.A. from Colorado State College. He came to Vanderbilt University as a Fellow in Mathematics in 1941 and the following year was awarded an M.A. degree. His Ph.D. degree was granted by George Peabody College for Teachers. He has studied also at the Universities of Nebraska and Minnesota.

After receiving his A.B. degree, Dr. Lundberg taught in public schools in Colorado, where he served as a member of the Delegate Assembly of the Colorado Education Association. He was Professor of Mathematics at Dana College, Blair, Nebraska, and at Allen Academy, Bryan, Texas.

In 1955 and '56 he was a participant in the Summer Faculty Program of Boeing Airplane Company, Seattle, and in the summer of 1957, a Research Participant in the Program of the Oak Ridge National Laboratory and Institute of Nuclear Studies.

Since 1942 he has been a member of the Tennessee Academy of Science, serving twice as Chairman of the Mathematics Section. Other associations of which he is a member are the American Mathematical Society, the Mathematical Association of America, the Society for Industrial and Applied Mathematics, the American Society for Engineering Education, the Tennessee Mathematics Teachers' Association, the Engineering Association of Nashville, and Sigma Xi. His papers have been published in the *Journal of the Tennessee Academy of Science* and the *Mathematics Magazine*.
