

## ADDENDUM TO THE 2002 TAS ANNUAL MEETING PROGRAM

### ADDITIONS

#### Oral Presentations

##### Chemistry 2:00 PM

Time Dependent Mesophase Structure Of Columnar Thermotropic Liquid Crystals.  
M. Sarkar, Tennessee State University

#### Posters

##### Health Sciences:

Uncommon Cause Of Chest Pain And Abnormal ECG In Young Man. Said Iskandar,  
Daniel Merrick, and Kim Dittus, East Tennessee State University

Adolescent Nicotine Treatment Alleviates Cognitive Deficits In A Rodent Model Of  
Schizophrenia. Kimberly N. Thompson\*, Timothy J. Flanigan, Stephanie K. Thacker,  
Rachel L. Norris, and Russell Brown, East Tennessee State University

Nicotine Improves Spacial Performance In Medial Frontal Cortex Lesioned Rats, But  
Improvement Depends On Previous Experience. Rachel L. Norris\*, Stephanie K.  
Thacker, Ivy R. Click, and Russell W. Brown, East Tennessee State University

##### Engineering and Engineering Technology:

Molecular Modeling Of HFC – R245FA. Anand Narayanan\* and Donald P. Visco Jr.,  
Tennessee Technological University (from oral session)

### CANCELLATIONS

#### Oral Presentations

##### Cell and Molecular Biology 1:30

Glucocorticoids And C-Ret Expression During *Mus musculus* Nephrogenesis. Ethel  
Cobbett\* and Gore Ervin, Middle Tennessee State University

##### Health and Medical Sciences 1:45

Mast Cell Infiltration And Angiogenesis In Preneoplastic Esophagus. O. Aljitawi, G.  
Krishnaswamy, G. Youngberg, S. Whaley, and K. Krishnan, East Tennessee State  
University

##### Engineering and Engineering Technology 4:00

Molecular Modeling Of HFC – R245FA. Anand Narayanan\* and Donald P. Visco Jr.,  
Tennessee Technological University (added to poster session)

#### Posters

##### Health and Medical Sciences:

Expression Of Surface Receptors On Bronchial Smooth Muscle Cells. Steven A. Lee\*,  
S. Matthew Fitzgerald, Scott Reynolds, David. S. Chi, and Guha Krishnaswamy, East  
Tennessee State University
