INDEX TO VOLUME X, 1935 .................................................. 301

OCTOBER, 1935
of the
Tennessee Academy of Science

EDITORIAL STAFF
JESSE M. SHAVER, Editor, George Peabody College for Teachers, Nashville.
HARRY MONK, Ornithology Editor, Ovoca Apts., Nashville.
GEORGE M. HALL, Geology Editor, University of Tennessee, Knoxville.
H. M. JENNISON, Botany Editor, University of Tennessee, Knoxville.
HENRY E. MELENEY, Parasitology Editor, Vanderbilt University, Nashville.

Entered as second-class matter February 12, 1926, at the post office at Nashvillle, Tennessee, under Act of August 24, 1912, acceptance of mailing at special rate of postage provided for in Section 1103 Act of October 3, 1917, and authorized September 16, 1931.

Published quarterly, in January, April, July and October, by the Tennessee Academy of Science at Nashville, Tennessee.

The Journal is sent to all members not in arrears for dues. The subscription price is $2.00 a year, invariably in advance. Single copies 50c. One dollar from the $2.00 dues of each member is for a subscription to The Journal of the Tennessee Academy of Science.

All articles and communications for publication, books and publications for review should be addressed to the Editor.

New subscriptions, changes of address, and applications for membership should be addressed to the Secretary. Personal items, news of events in the scientific world, and other notes suitable for our "Notes Here and There" department may be addressed to the Editor.

THE TENNESSEE ACADEMY OF SCIENCE
(FOUNDED, 1912, AT NASHVILLE, TENNESSEE)

Affiliated with the American Association for the Advancement of Science

OFFICERS
GEORGE M. HALL, President, University of Tennessee, Knoxville.
DR. WILLIAM A. LITTERER, Vice-President, State Bacteriologist, Nashville.
JESSE M. SHAVER, Editor, George Peabody College for Teachers, Nashville.
J. T. McGill, Secretary-Treasurer, Vanderbilt University, Nashville.
MISS ELEANOR EGGLESTON, Librarian, Vanderbilt University, Nashville.

The Tennessee Academy of Science is very anxious to include in its membership all teachers and professors of science, research workers in science both in educational institutions and industrial establishments, and all others who are interested in some phase of science. We invite you to join our organization and take part in our activities. The annual dues are: $2.00 for members and $10.00 for sustaining members. They may be sent direct with your application for membership to the secretary.
Three Essentials to RESEARCH PERFORMANCE

Designed and built specifically for accurate performance, the B & L Model Type G Microscope, has become firmly established as an instrument with which the research scientist can do full justice to his ability.

It is adaptable to practically any type of research microscopy and especially designed optics and accessories will permit even the simpler models to be used in the most advanced work. Monocular and binocular body tubes, either inclined or vertical, plain and mechanical stages* (rectangular or circular), substages (either simple or with adapters for various condensers) and optics for a large variety of purposes are some of the available accessories.

Write today for complete details to Bausch & Lomb Optical Co., 657 St. Paul St., Rochester, N. Y.

*Rectangular stages measure 112x115 mm.
Circular stages are 125 mm in diameter.

Bausch & Lomb
CHEMICALS

We can supply the following at new low prices:

- AMMONIUM NITRATE—purified white granular.
- SODA LIME—absorbent for CO₂ and other acid gases.
  Low moisture, 4-8, 8-14, 14-20 mesh.
- SODIUM BROMIDE, U.S.P.
- TRIMETHYLENE BROMIDE.
- TRIMETHYLENE GLYCOL.

Clip this entire advertisement, check items on which you desire prices, write name on margin, and mail to:

TRIARCH BOTANICAL PRODUCTS

Triarch offers you a unique service; no other concern working exclusively on plants
presents so wide a selection of materials and services.

Years of study and technical experience enable us to supply you with microscope slides
and preserved plants which will really help your students to learn botany.

Prepared microscope slides for general botany, plant pathology, cytology, wood tech-
nology, and pharmacognosy; preserved plants; photographs and lantern slides; photo-
micrographs; these are our regularly listed products, but we are ready to help you in
any of your botanical laboratory problems.
