INDEX FOR VOLUME XXV, 1950 ............................... 315

OCTOBER, 1950
Entered as second class matter February 12, 1926, at the post office at Nashville, Tennessee, under Act of August 24, 1912, acceptance of mailing at special rate of postage provided for in Section 1103, Act of October 3, 1917, and authorized September 16, 1931.

Published quarterly, in January, April, July, and October, by the Tennessee Academy of Science at Nashville, Tennessee.

The Journal is sent to all members not in arrears for dues. The subscription price is $2.00 a year, invariably in advance. Single copies 50c.

All articles and communications for publication, books and publications for review should be addressed to the Editor.

New subscriptions, changes of address, and applications for membership should be addressed to the Secretary. Personal items, news of events in the scientific world, and other notes suitable for our "News of Tennessee Science" department should be addressed to the News Editor.

THE TENNESSEE ACADEMY OF SCIENCE
(FOUNDED, 1912, AT NASHVILLE, TENNESSEE)

Affiliated with the American Association for the Advancement of Science

AFFILIATED SOCIETY
Tennessee Ornithological Society, Nashville, Tennessee.

OFFICERS
S. L. MEYER, President, The University of Tennessee, Knoxville.
M. L. MACQUEEN, Vice-President, Southwestern College, Memphis.
JESSE M. SHAVER, Editor, George Peabody College for Teachers, Nashville.
ARLO I. SMITH, Secretary, Southwestern College, Memphis.
JAMES J. FRIAUF, Treasurer, Vanderbilt University, Nashville.

The Tennessee Academy of Science is very anxious to include in its membership all teachers and professors of science, research workers in science both in educational institutions and industrial establishments, and all others who are interested in some phase of science. We invite you to join our organization and take part in our activities. The annual dues are: $3.00 for members and $10.00 for sustaining members. They may be sent direct with your application for membership to the secretary.

THE DIFFERENCE
on this CHART

- Exclusive variable focus condenser
- Exclusive threadless cell lens mounts
- Exclusive nosepiece with roller bearing stops
- Exclusive bronze body tube
dove-tail slide
- Exclusive patented lever fine adjustment
- Coarse adjustment with matched rack and pinion
- Substage with full 360° ring mount
- Integral Substage Illuminator (optional)
- Balco red optical system (optional) to reduce reflections and glare
- Truly beautiful styling

See THE DIFFERENCE IN A DEMONSTRATION

Let your own test prove the smooth-as-silk racking, precise focusing and illumination control, world's finest optical system, and convenience of a new Bausch & Lomb Laboratory Microscope.

Bausch & Lomb Laboratory Microscopes
PLASTIC EMBEDDING

Teaching specimens for biology and mineralogy attain unmatched beauty, utility (as for microscopic examination), and durability when mounted in crystal-clear, lustrous blocks of Bio-Plastic. This method, introduced by Ward’s in 1946, has been perfected to the point where anyone, without equipment or training, can process these superior aids for himself. Partial proof will be found in Ward’s illustrated manual, "How to Embed in Bio-Plastic"—available at 25c.

A SCIENCE CURRICULUM

Especially arranged for preparing teachers of science. The prospective teacher may get a minimum of three years in one science (Biology or Chemistry), two years in a second science, and one year in the third science, with the courses in Psychology and Education required for a teaching certificate, including practice teaching in science.

Graduate work through the master’s degree given in biology and chemistry in order to prepare teachers for the larger high schools or for teaching positions in small colleges.

Write for catalogue mentioning the field of your interest to
