The Tennessee Academy of Science is very anxious to include in its membership all teachers and professors of science, research workers in science both in educational institutions and industrial establishments, and all others who are interested in some phase of science. We invite you to join our organization and take part in our activities. The annual dues are: $3.00 for members and $10.00 for sustaining members. They may be sent direct with your application for membership to the secretary.
BUT TODAY you need Bausch & Lomb "Years Ahead" design...

- You need these exclusive advantages of the B&L Laboratory Microscope to help keep you abreast of the latest scientific findings and techniques; variable focus condenser; threadless cell lens mounts; nosepiece with roller bearing stops; bronze body tube dove-tail slide; patented lever fine adjustment. B&L features like these give you the finest quality images, faster, more easily: coarse adjustment with matched rack and pinion; substage with full 360° ring mount; integral substage illuminator (optional); Balcoted optical system (optional) to reduce reflection and flare.

See the difference in a demonstration

Let your own test prove the smooth-as-silk motion, precise focusing and illumination control, world’s finest optical system, and time-and-effort-saving convenience of a new B&L Laboratory Microscope.
