

November Meeting of the Tennessee Academy of Science

The 90th meeting of the Tennessee Academy of Science will be held at Oak Ridge National Laboratory in Oak Ridge on Friday and Saturday, November 21-22, 1980. We hope that you have made plans both to attend and to present a paper at one of the section meetings.

In order for abstracts of presentations at the November meeting to be included in the April 1981 issue of the *Journal of the Tennessee Academy of Science*, it is necessary that the title and an abstract (not more than 150 words) be sent to the appropriate section chairperson (names and addresses are given below). The abstracts must be submitted *prior to presentation* at the meeting.

The General Session speakers on Friday morning and the banquet speaker will be persons of national stature. The theme of the presentation will be "Atmospheric Science: Issues and Solutions."

TAS Announces Research Grants For Secondary School Students

The Tennessee Academy of Science is sponsoring research grants for secondary school students in Tennessee for the academic year 1980-81. Applicants should state clearly the major objectives of the project and include a detailed listing of materials and supplies that are needed. Justification for purchase and an estimated cost for each item should be included. No funds will be approved for travel or per diem. Each applicant must demonstrate approval of his project by his science teacher and state whether he/she will report the findings of the research in a science fair project or at a meeting of the Junior Tennessee Academy of Science.

Applications should be sent to:

Dr. Prem S. Kahlon, Chairman
TAS Research Committee
Tennessee State University
Nashville, Tennessee 37203
